

Ali Zain

AI & Machine Learning Engineer

methealizain@gmail.com | +92 3229587927 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

AI/ML Engineer with experience in end-to-end ML model development and Python backend systems across legal, real estate, and finance domains. Skilled in NLP, LLMs, RAG pipelines, and deployment using Python, FastAPI, Docker, and AWS. Built automation pipelines that reduced manual workloads by up to 90%.

WORK EXPERIENCE

Machine Learning & Python Developer

Intalytic Group Ltd, Islamabad

November 2024 – March 2026

- Worked as an AI engineer and developed document processing pipeline for extracting and validating structured data from Real Estate documents, resulting in a 70% reduction in processing time.
- Built an LLM-based pipeline and led API development for OCR, extraction, validation, and automated storage of banking documents to AWS S3, reducing manual workload by 90%.
- Developed a timesheet-to-payroll pipeline using OCR and financial data extraction, optimized via few-shot prompting and chunking to reduce hallucination, integrated into a UK-based payroll system with AWS S3, and deployed with the DevOps team.

Projects

AI Developer – FYP | Python, FastAPI, OCR, OpenAI

- Built SaaS platform for law firms to automate document workflows reducing case processing time by 60%.

Smart Invoice Classifier | Scikit-learn, FastAPI, Docker

- Trained Random Forest model on 300k invoices across 5 categories, achieved 98% accuracy.

AI SEO-Blog Generation | LangGraph, Anthropic, Python

- Automated SEO-ready AI blog generation workflow using LLMs reducing 80% of manual writing effort.

Fraud Detection Classifier | Scikit-learn, SMOTE, FastAPI

- Trained a fraud detection classifier with feature engineering on 6.3M records, achieving 98% accuracy.

RAG Fashion Bot | LangChain, Weaviate, OpenAI

- Built RAG chatbot for fashion knowledge-base search across 44,000+ products, handling real-time customer Q&A.

EDUCATION

Bachelor of Science in Information Technology

Quaid-i-Azam University, Islamabad – CGPA 3.3/4.0

Graduated: 2025

SKILLS

AI/ML: Scikit-learn, TensorFlow, LangChain, LangGraph, RAG, OpenAI, OCR

Backend & Tools: Python, SQL, FastAPI, Docker, AWS, PostgreSQL, MongoDB, Git

CERTIFICATIONS

Machine Learning Specialization | Retrieval Augmented Generation | Microsoft Certified: Azure AI Fundamentals
